Dear Colleagues,

I hope you are fine and doing well with the current worldwide improving situation. After the great success of our last meeting in 2020 with about 200 participants and speakers from fifteen countries, ten live surgeries and an intensive scientific exchange between the international surgeons and experts. We are pleased to welcome you again at the 4. SOAP-Meeting at the Dorint Parkhotel in Bremen. Because of the Pandemic Situation with all its consequences we canceled the SOAP-Meeting in 2021 and we are now highly motivated and full of anticipation to have our meeting back and see you all again face to face.

SOAP is now one of the top international live-surgery congresses in Europe and worldwide. We appreciate having you in Bremen with our excellent, highly experienced and valuable international faculty. The best is yet to come.

In our meeting we will report on the latest developments, leading techniques and current treatment methods in the field of Plastic-Aesthetic-Surgery. The SOAP-Meeting is an excellent opportunity to get first-hand information on the latest State of the Art in Plastic-Aesthetic Surgery.

Let's make it special!

I am proud to host and to welcome you at the beautiful Hanseatic city of Bremen.

Sincerely Yours,

Prof. Dr. C. Can Cedidi

COOPERATION PARTNER

ISAPS

The International Society of Aesthetic Plastic Surgery (ISAPS) is the world's leading professional body for board-certified aesthetic plastic surgeons. Founded in 1970, ISAPS membership includes the world's best known and respected reconstructive and aesthetic plastic surgeons in over 100 countries on every continent reflecting the true international mission of the organization. The Society was founded to provide a forum for the interchange of ideas and knowledge for the advancement of aesthetic plastic surgery. In addition, ISAPS has become the gold standard for providing continuing education to its members in new procedures, techniques and options in aesthetic and reconstructive plastic surgery. ISAPS surgeons are members of their national societies of plastic surgery and, in this regard, ISAPS serves as an important bridge among many different professional societies and organizations.

DGPRÄC

The "German Society of Plastic, Reconstructive and Aesthetic Surgeons" (DGPRÄC) is officially representing more than 1700 German Plastic surgeons both nationally and internationally. Founded in 1968 the society is officially representing German Plastic Surgery in politics and science. Only surgeons holding the German title "Specialist for Plastic and Aesthetic Surgery" or "Specialist for Plastic Surgery" are qualified for membership. Doctors in training may apply for "associate membership".

VDÄPC

The Association of German aesthetic-plastic surgeons (VDÄPC) is the biggest German society of aesthetic surgeons in Germany and is a subsidiary of the DGPRÄC. The VDÄPC offers a wide range of online and offline training courses in the field of aesthetic surgery. Only surgeons holding the German title "Specialist for Plastic and Aesthetic Surgery" or "Specialist for Plastic Surgery" are qualified for membership.

IPSN

IPSN is the first interactive & international plastic surgery online community. It's not only concerned for memberships, meetings, medical papers and workshops, but has the unique edge of being an around the clock, 24 hrs ready to help the plastic surgeons choose the best solution for their patients in all kinds of problematic cases with the maximum benefit of consultation and gaining different experiences from all over the world.

TPRECD

The mission of the Turkish Society of Plastic Reconstructive, and Aesthetic Surgery is to provide safe, ethical, efficacious, and the highest quality patient care; to develop and support the domestic and international education; to promote the fields of Plastic Surgery, including cranio-maxillofacial surgery, orthognathic surgery, microsurgery, hand surgery, trauma surgery, surgery of the congenital anomalies, burns, oncologic surgery, and aesthetic surgery; scientific and clinical research; and to organize scientific and professional activities.
